INTERPROFESSIONAL PROFESSIONALISM ASSESSMENT

Purpose:
The purpose of the Interprofessional Professionalism Assessment (IPA) is to evaluate an entry-level health professional’s demonstration of professionalism when interacting with members of other health professions.

Application:
The Interprofessional Professionalism Assessment can be used by health professionals to evaluate themselves or others including learners, peers, supervisors, or subordinates.

Definition:
Interprofessional professionalism: “Consistent demonstration of core values evidenced by professionals working together, aspiring to and wisely applying principles of altruism and caring, excellence, ethics, respect, communication, accountability to achieve optimal health and wellness in individuals and communities.”

Directions:
Using the rating scale provided below, please express your level of agreement with each of the items based on your overall impressions and observations of the individual’s behavior throughout the practice experience. This should represent your final assessment of the individual at the conclusion of the practice experience. Definitions are provided as a context for each of the categories provided.

Rating Scale:
SD = Strongly disagree; D = Disagree; N=Neutral, A = Agree; SA = Strongly agree; N/O = No opportunity to observe in this environment

Communication
Communication: Impart or interchange of thoughts, opinions or information by speech, writing, or signs; “the means through which professional behavior is enacted.” (Arnold and Stern in Stern 2006)

1. Works with members of other health professions to coordinate communication with patients/clients and family members.
2. Demonstrates active listening with members of other health professions.
3. Communicates respectfully with members of other health professions.
4. Communicates with members of other health professions in a way they can understand, without using profession-specific jargon.
5. Responds to questions posed by members of other health professions in a manner that meets the needs of the requester.

Provide comments related to the behaviors associated with Communication, including those that are positive and those needing improvement.
INTERPROFESSIONAL PROFESSIONALISM ASSESSMENT
